

Car lift tables

For years, this solution has provided car dealers with the opportunity to overcome the obvious hinder that moving cars between different floors implies. With the adapted construction, the car lift table is perfect for being able to quickly adjust and rearrange the interior of multiple-level showrooms. For private use it is primarily the intelligent storage possibility beneath the surface that characterizes the car lift table, as it doubles the usable area and simultaneously grant an unmatched shelter of security that prevents break-ins and car thefts. All car lift table models include complete standard steering with one push button box.

The car lift tables cannot be used as traditional lift tables. The platform's construction in terms of profiles, thickness, etc. is designed for cars only.

NOTE! If you are in need of retrofitting gates, doors, etc., please provide this information in the request as it will require a special electric execution at an additional cost.
